PUBLIC MEETING NOVEMBER 20 ON LICENSE RENEWAL APPLICATION FOR D.C. COOK NUCLEAR PLANT

The U.S. Nuclear Regulatory Commission staff will hold a public meeting on November 20, in Bridgman, Michigan, to discuss how the agency will review the application submitted by Michigan Power Company to renew the operating license for the Donald C. Cook Nuclear Station, Units 1 & 2.

The meeting will begin at 7 p.m., at Lake Charter Township Hall, 3220 Shawnee Road, in Bridgman, Michigan. Members of the public are invited to ask questions and comment on license renewal issues the NRC should consider in its review of the application.

The purpose of the meeting is for the NRC staff to provide information on how the license renewal process works and how the public can participate in this process.

The NRC received the license renewal application for D.C. Cook Nuclear Power Station from Indiana Michigan Power Company on November 3.

The license renewal application is available on the agency's Web site at this address: <http://www.nrc.gov/reading-rm/adams/web-based.html> by entering accession number ML033070179. Help in using the online document library is available by contacting the NRC Public Document Room staff at 301-415-4737 or 800-397-4209, or by sending an electronic message to pdr@nrc.gov

In addition, copies of the license renewal application are available at the Maud Preston Palenske Memorial Library, 500 Market St., St. Joseph, Michigan, and the Bridgman Public Library, 4460 Lake St., Bridgman, Michigan.
